

LET'S MULTIPLY!

Math for Grade 3

What is Multiplication?

Multiplication is just **adding the same number** again and again! It's a shortcut!

3 groups of 2 = $3 \times 2 = 6$

Multiplication as Repeated Addition		
1 ladybird has 2 spots.	2	$1 \times 2 = 2$
How many spots do 2 ladybirds have?	$2 + 2 =$	$2 \times 2 =$
How many spots do 3 ladybirds have?	$2 + 2 + 2 =$	$3 \times 2 =$
How many spots do 4 ladybirds have?	$2 + 2 + 2 + 2 =$	$4 \times 2 =$
How many spots do 5 ladybirds have?	$2 + 2 + 2 + 2 + 2 =$	$5 \times 2 =$

Using Arrays

We can use **rows** and **columns** to multiply! This is called an Array.

Look for rows and columns in class!
